FOR IMMEDIATE RELEASE

CALTRANS TO HOST ROUTE 255 ENGINEERED FEASIBILITY STUDY OPEN HOUSE

Eureka – Caltrans announced today that a public open house for the Route 255 Engineered Feasibility Study will be held on Wednesday, February 15, 2012, from 4:30 p.m. to 6:30 p.m. at the Manila Community Center, 1611 Peninsula Drive. The drop-in style open house will look at possible improvements to State Route 255 from Eureka to Arcata. There will be a brief formal presentation at 4:30 p.m. and again at 5:30 p.m. in addition to an opportunity for the public to review displays, ask questions of Caltrans staff, and make comments and suggestions.

The engineered feasibility study has investigated a full range of needs, options, ideas, opportunities, and constraints for traffic calming and non-motorized traffic accommodations along Route 255. In the future, the study will be used as a reference document identifying potential improvement projects, enabling Caltrans to respond to and compete for various project funding sources as they become available.

For more information, please visit www.dot.ca.gov/dist1/hum-studies/ or contact Brian Simon, Project Engineer at (707) 441-3935.
